Cede Labs

Conceived by DeFi users, Cede Labs aims to be the gateway between the data and liquidity of DeFi and all dApps.

It will enable users to track and manage their assets held on centralized platforms (CEX) from any dApp, while retaining the DeFi values: API key and DeFi UX.

Cyberzen

We support your cybersecurity and IT governance.

Experience digital transformation like never before. With Cyberzen, you benefit from a simplified and respectful transition, protected by leading-edge cybersecurity experts and solutions. We are the bridge between today's technologies and tomorrow's innovations, ensuring that you always stay one step ahead.

Deutsche Digital Assets

Deutsche Digital Assets is a BaFin-registered crypto-asset manager and advisor.

We offer a wide range of crypto investment products and solutions, from passive exposure to active management, as well as white-label financial product services for asset managers.

We deliver excellence through familiar and reliable investment vehicles, providing investors with the quality guarantees they deserve from a world-class asset manager, while upholding our mission to drive the adoption of crypto-assets.

Ejara

Ejara's activities consist in developing and providing a technological interface via a website and a mobile application. Our interface is dedicated to the sale of services relating to investment in digital assets.

Ejara is registered as a Digital Asset Service Provider (DASP) with the Autorité des marchés financiers (AMF), and intends to pursue its objective of

democratizing digital asset investment to the public, in particular by promoting solutions based on blockchain technology.

Eltican Asset Management

We are three partners combining 45 years of experience in crypto, digital assets and quantitative trading. We believe that digital assets offer new opportunities for quantitative strategies.

Our investment philosophy is based on rigorous risk management. We offer a transparent, regulated fund structure with a clear roadmap.

Hash Consulting

Hash Consulting is a consulting and communications agency specializing in blockchain-related products.

Founded in 2019, we offer a wide range of services to brands and companies interested in Web 3 and its host of opportunities.

We were born into this ecosystem with an ability to understand, popularize and spread our vision of blockchain to the brands and partners we build alongside.
